THE COMPANY INTRODUCTION

ABOUT

PAW WOW was established in 2013 by Grace Cho and Hannah Kim.

Initially, they just wanted to feed their loved dogs with the quality of food so they made dog food on their own.

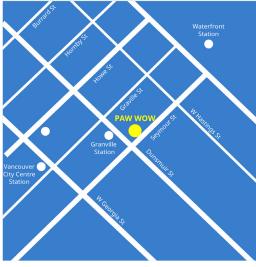

They shared the story on Instagram and got a lot of feedbacks that their friends want to buy for their pets.

That is how they started their business with homemade dog treats in their small suite located in East Vancouver.

Right after gaining a huge fandom throughout the local dog owners, they expanded into an online website since 2015.

The company offers ranging from a variety of dog foods to trendy outfits online.

BRADN COLORS

WE SEE THE WORLD FROM A DOG'S PERSPECTIVE

This is why our brand colors are blue, yellow and gray!

Dogs are not completely color blind since they have a dichromatic color perception. They have only two (yellow and blue). This does not mean that dogs can't see green or red objects! It only means that they can't distinguish green, yellow or red objects based on their color. However, they can still distinguish a red ball from a green one if there is a difference in the perceived brightness of the two.
